I of

In the State/Territory of being the owner/owner's agent (*delete one) of the cattle to be exhibited, declare that:

- 1. The above information is complete, true and correct, and
2. I undertake to advise the relevant Show Society(s) if there is any change to the health status of the cattle to be exhibited between the time of entry and the Annual Show, and
3. All cattle to be exhibited will be identified with an NUS device.

Signed..... Date:/...../.....

NOTE: Persons making false declarations may be liable under Fair Trading Legislation and the Stock (Seller Liability & Declarations) Act 1993.

PRIVACY NOTICE: By completing an entry form to compete at the Noorat Show, you will be supplying the Noorat & District Agricultural and Pastoral Society Inc with your "personal information". Without this information, the Society will not be able to register your entry. This information is required for administration purposes including, but not limited to, recording the fact that you are an exhibitor or competitor at the Noorat Show. We may also disclose information about you to other Agricultural Society bodies and the printed media. If legal, health or safety issues arise, we may be required to disclose information to relevant organisations that deal with these matters. You may request access to your information and request that it be correct at any time by contacting the Society Office on (03 5592 5232 or in writing to Noorat & District Agricultural and Pastoral Society Inc, PO Box 85, Noorat Vic. 3265

NATIONAL SHEEP HEALTH STATEMENT (SHS) - (Continued)

D: TREATMENT INFORMATION OF CONSIGNED SHEEP			
Treatment	Product	Last Treatment	
External Parasite Treatment		Month	Year
Internal Parasite Treatment		Month	Year
Vaccination (other than OJD)		Month	Year

E: ADDITIONAL INFORMATION <i>(optional - see note 9)</i>

F: DECLARATION <i>(see note 10)</i>
I (full name):
Address:
declare that, I am the owner and/or person responsible for the husbandry of the sheep in this consignment and all the information on this Sheep Health Statement is true and correct:
Signed: Date: . . . / / 20
Phone Number: Fax number/email:

Producers are advised to retain appropriate records to support this declaration. Persons making false statements may be liable under fair trading and other relevant state legislation.

NATIONAL SHEEP HEALTH STATEMENT (Explanatory Notes)

NOTE 1: Biosecurity Plan: Agreed actions and activities of farms and/or producers to prevent the incursion of animal disease(s) into a flock or onto a property. It may outline measures including (but not limited to) conditions on sheep movements into the area, vaccine policy and response to disease detection. These plans can be at a property or regional level and can cover a range of diseases. The National Farm Biosecurity Reference Manual for Grazing Livestock Production and regional biosecurity plan guidelines can be used to develop plans.

NOTE 2: SheepMAP: An audited quality assurance program incorporating a property biosecurity plan, animal health risk assessment, testing, and movement controls that provide a source of low risk animals. (Note: level of testing varies depending on status.)

NOTE 3: Faecal 350: A test of 350 representative sheep over 2 years of age (or all sheep over 2 years of age in smaller flocks) by Pooled Faecal Culture (PFC) or equivalent test in pools of up to 50 sheep. The sheep must have been on the property for at least 2 years.

Abattoir 500: At least 500 sheep, over 2 years of age, have been submitted to an abattoir in the past 24 months, in 1 or more lots, have been examined and all found negative for OJD. The sheep must have been on the property for at least 2 years.

Abattoir 150: At least 150 sheep, over 2 years of age, have been submitted to an abattoir in the past 12 months, in 1 or more lots, have been examined and all found negative for OJD. The sheep must have been on the property for at least 2 years.

NOTE 4: Other: Post mortem examination by a SheepMAP vet with no indication of OJD, or other negative test.

NOTE 5: Infected Flocks: A flock which is infected with OJD, and there is evidence of, or likely potential for, transmission of infection within the flock and the flock has not met the requirements for resolution of infection in accordance with the current National OJD Standard Definitions, Rules and Guidelines (SDR&Gs).

Suspected of being infected: A flock is suspected of being infected with OJD if the owner has reasonable grounds to believe that the flock has been exposed to OJD infection or that OJD may exist in the flock, based on:

- trace back or trace forward contact with an infected flock
- contact with OJD contaminated land or facilities
- a positive Johne's disease screening test, e.g. abattoir monitoring or blood (ELISA) test
- is a neighbour of an infected flock unless there is an effective biosecurity barrier
- clinical signs of OJD, or
- advice from the relevant state agricultural department.

AND the flock has not met the requirements for resolution of suspicion in accordance with the SDR&Gs.

NOTE 6: 'T' tag (terminal) lamb: A lamb which is to be slaughtered before it cuts its first permanent teeth and is identified by an NLIS (sheep) 'T' tag. The 'T' tag may be a requirement for trading into some areas.

NOTE 7: Approved Vaccinate: A sheep that is identified by an NLIS (sheep) 'V' tag and is:

- vaccinated with an approved OJD vaccine by 16 weeks of age, or
- vaccinated with an approved OJD vaccine after 16 weeks of age, when the flock:
 - o was in the SheepMAP, or
 - o had undertaken a negative Faecal 350 test in the two (2) years preceding the vaccination, or
 - o had a Negative Abattoir 500 status at the time of vaccination.

NOTE 8: Other: This could include sheep sourced from historical Low Prevalence Areas (LPA), or sheep that previously had an ABC score higher than 4, or were from an area with a regional biosecurity plan.

NOTE 9: Additional information: A producer may wish to add additional information pertaining to the consignment and/or consignment flock that is not covered by answering the listed questions. Examples may include historical tests or prevalence areas for OJD, history of OJD vaccination if not continuous, worm resistance test results, where introduced sheep were sourced from, blood lines, micron, breed society, etc.

NOTE 10: Declaration: Signing this declaration has legal significance. Regulatory authorities may take legal action, and purchasers may seek damages for any information that is incorrect. Before signing you must be satisfied you understand all elements of the document, and these explanatory notes.

For more information on biosecurity or diseases go to www.animalhealthaustralia.com.au

Warrnambool Show 2018 BBQ's Galore Homebrew Competition

Entry Form

Brewer's Full Name:

2018 Warrnambool Show

Have Your Say

We hope you all had a lot of fun and learnt heaps at this year's Show. We will be back next year and we would like your help to make it a terrific Show. Below are two really easy questions for you to ponder and respond to.

What did you like/love at this year's Show?

.....
.....
.....

What would like/love to see at next year's Show?

.....
.....
.....
.....

Thank you for taking the time to answer our questions and for helping us to make the Warrnambool Show even better. All you have to do now, is send Have Your Say to one of the addresses below or scan and email it to us.
